

X4 800 XL X-ray Inspection

www.loma.com

Versatile, proven X-ray detection for the food and packaging industries

- Versatile Designed for inspection of large products, including Euro crates and meat boxes
- Easy to use Intuitive full colour touch-screen
- · Sanitized Fully draining with easy wash through conveyor
- Fast Belt speeds in excess of 50 m/min without loss in performance
- Reliable Heavy duty conveyor components, built for 24/7 operation and harsh wash down

X-ray Inspection Systems

Finish: 304 stainless steel with brushed finish

Typical Line Height: 900mm ± 50mm

System Length: 2500mm Belt Width: 800mm Maximum Weight 100kgs

Supply Voltages: 230/1ph/50Hz N+E or 110/1ph/60Hz N+E

5 - 8 bar Air Supply Reject Options: Signal only

Environment: IP 66

Belt Type: Intralox (food quality) belt

Standard Inclusions: Height adjustable feet, Mass Measurement, Missing

product, Shape recognition, Image and report archiving,

Hinged interlocked covers, Variable speed

Survey meter, Remote diagnostics, LomaEnet, NAS Image Options:

data and image archiving, Inline code selection solution to

enable discrete inspection of mixed product batches.

Technical Specification

Industrial Grade PC, Ethernet and front access USB port

Digitally controlled WASC (Wide Angle, Self Cooled) high performance X-ray tank (long life cycle)

Unique USB high speed, high stability, detector array with 0.8mm diode pitch

Computer vision system utilising image processing and morphological techniques

Pass Key protected set-up and user access levels

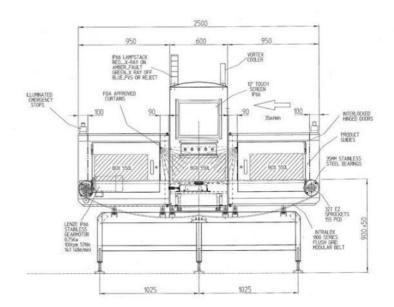

Embedded Windows XP operating system

USB Report and image archiving

Full diagnostic and system health monitoring with date and time stamp archiving, including remote support tools

Usage monitoring with planned maintenance prompts.

Modular system with speed digital communications between major components

Typical Dimensions

Loma Systems, Summit Ave, Southwood, Farnborough, Hampshire, GU14 0NY
